Explanation : 1.Overseas Compatriot Identity Endorsement on the passport excludes applications processed by overseas missions.
2.Following the Ministry of the Interior's amendment and implementation of the Regulations for the Conscription of Naturalized Citizens and Returning R.O.C.(Taiwan) nationals residing overseas on September 8, 2025, Overseas Compatriot Identity Endorsement on the passport is no longer used as the basis for recognizing Overseas Compatriot Conscription Male status. Instead, the Overseas Compatriot Identity Certificate for Military Service is now the official basis for such recognition. Consequently, the number of applications for the certificate surged in the same year.
